Prior to joining Gladstone Capital all four were members of the Media Finance team at Wells Fargo Foothill. The addition of this respected media lending team will allow Gladstone Capital to become a leading lender to small and middle-market media companies. Our focus will be on senior debt placements starting at \$3 million, but in selected circumstances we will consider both subordinated debt and equity. Our industry expertise includes publishing, cable television, broadcasting, outdoor advertising, tower companies and other media and communications companies. This merger is not only exciting for Gladstone Capital, but for the entire media industry!
